

<p>schedule a meeting with a physician at Student Health Services (or your own physician) to discuss your completed HHQ. The physician will notify EH&S if you are approved to work or around animals.</p>	<p>If "yes", submit HHQ</p>
--	-----------------------------

Note: If you have not had a tetanus booster within the last ten (10) years, you are strongly encouraged to receive one at your earliest convenience. Rabies immunization is recommended for persons whose work environment makes them susceptible to the bites of carnivores, livestock, non-human primates and wildlife.
