**Tell Us More**

Field of Interest: please list your field(s) of interest.

Experience: briefly describe field, laboratory, or computational experience you have had outside of your coursework (internship, employment, undergraduate research). Include areas where you felt you excelled, instrumentation you used, reports you produced.

Long-term Goals: briefly indicate what your long-term goals are (Ph.D., industry job, government position, etc.)

## Personal Statement

Please attach a 1-2 page statement of interest that addresses why you are applying to graduate school (and CSULB in particular) and what triggered this interest; what your field(s) of interest is(are) including possible projects, skill sets, geographic areas; why you want to work with your selected advisor(s); and what you think you will contribute to the department.

## Submission Instructions

Please note that an application to the University is required in addition to this departmental application. The University application is on-line at [&DO 6WDWH \\$SSO\](#)
