

COLLEGE OF ENGINEERING (COE)

Liaison: Jina Lee Flores, Associate Director

During the Spring 2022 semester, the Career Development Center collaborated with the Department of Biomedical Engineering by connecting them to Sea Spine, a pure-play spine company that focuses on growth and innovation. The process began with a planning meeting between Zach Dooley (Manager of Research & Testing, Sea Spine), Dr. Shadnaz Asgari (Chair, CSULB Biomedical Engineering Dept) and Jina Flores (Associate Dir, CDC). What resulted was Sea Spine's participation in the BME Design Expo & Awards Ceremony where Zach Dooley (pictured to the right) served as one of four judges from industry. Plans have begun for Fall 2022 to have Sea Spine sponsor a senior design capstone project which would entail weekly meetings with the selected team to guide them through the project. In addition, Zach Dooley will serve as guest lecturer for the regulatory compliance class. As the biomedical engineering department continues to see growth in student enrollment, the Career Development Center also continues to provide increased employer engagement opportunities for the students.

College of Engineering Student Engagement

Workshops & Targeted Events

A total of 111 weekly workshops, webinars and targeted events were conducted (Including Career Insights, Industry Spotlights, Real World Experience Week, Women & Careers, and Latina Connection Conference)

426

COE Workshops & Targeted Event Attendees

Classroom Presentations

Topics for 4 sessions: Resume Writing and Interviewing Techniques, Prepare for the Job Fair

213

COE Classroom Presentation Attendees

Drop-In Sessions

15 minute advising sessions for resume & cover letter critiques or job and internship search information. No appointment needed.

215

Drop-In Sessions for COE Students
