

Optional Syllabus Statements for the Acceptable or Unacceptable Use of AI Tools in Your Course

The following guidance is provided to assist you in developing class policies on the use of generative AI tools in your course. Please adjust the statement to reflect your parameters and to fit your course

- x Be specific and let students know what class activities are permitted and not permitted for the use of generative AI tools
- x If you are prohibiting the use of generative AI tools, it is important to think about the appropriate level of penalty for first-time offenders and those who repeatedly violate your policies on the use of generative AI tools

Statements Describing the Acceptable Use of Generative AI Tools

1. [This sample syllabus statement is useful when you are allowing broad use of generative AI tools.]

You are welcome to use this statement as is or modify it to fit your course. For more information, visit <https://www.coursera.org/ai-policy>.

2. [This syllabus statement is useful when you are forbidding specific use of generative AI in your class].
The use of generative AI
